PARTIALLY COMPLETED

Module	Status	Notes
Chat System (UI + Backend)	⚠️ Partial	Exists but not fully wired to listings
AI Image Analysis (LLaVA)	⚠️ Partial	Model ready, integration incomplete
AI Listing Generation Logic	⚠️ Partial	Prompt being refined
Tracking (Chat → Listing Events)	⚠️ Partial	Currently hacked via LoginActivity
Arabic AI Output Handling	⚠️ Partial	Being simplified/refactored

NOT COMPLETED (CRITICAL)

Module	Status	Notes
Chat → Listing Flow (CORE FEATURE)	❌ Not Done	Main missing piece
Image Upload in Chat → AI Analysis	❌ Not Done	Needs full wiring
Auto Listing Creation via Chat	❌ Not Done	No end-to-end flow
User Confirmation → Publish via Chat	❌ Not Done	Missing UX step
Proper Event Logging System (not hijacking LoginActivity)	❌ Not Done	Needs separate EventLog
AI → Category Mapping (accurate)	❌ Not Done	Needed for quality listings

REAL STATUS (IMPORTANT)

Layer	Completion
Backend	 90%
Infrastructure	 100%
Frontend	 75%
AI Integration	 50%
Core Product Experience	 40%

SIMPLE TRUTH

You are NOT early stage.

You have already built the system
Now you are finishing the intelligence layer

ONE LINE SUMMARY

System is technically complete — AI selling experience is not.
