Critical Issues Before Demo

1. Silent Logout Bug (P0)

Problem

When a user:

1. Logs in
2. Goes to Explore
3. Refreshes page

The system calls:

```
/api/auth/refresh
```

and receives:

```
401 Unauthorized
```

Then:

```
User gets silently logged out  
Redirected to landing page
```

Why Fahad Will Notice

Fahad usually:

- logs in
- clicks around
- refreshes pages

This bug will appear immediately during a demo.

2. Admin Dashboard Crash (P0)

Problem

Opening:

```
https://sell-sell.com/admin
```

causes:

```
React Error #419
```

Error:

```
Cannot destructure property  
'getFieldState'
```

Impact

Admin dashboard becomes unusable.
